

Queries Needing Params Advisor

The Queries Needing Params Advisor shows you a list of the queries that are simliar and could be tuned by parameterizing them. Along with the plan cache savings that you would get by parameterizing the query.

Parameterizing the following query will save 288kb in the plan cache.

```
SELECT FirstName, MiddleName, LastName
FROM person.Person p
WHERE FirstName like '@?';
```

The above parameterized query could replace all instances of the queries shown elow in the Queries Needing Params list.

Queries Needing Params

Size	Query
40kb	SELECT FirstName, MiddleName, LastName FROM person.Person p WHERE FirstName like 'Alex';
40kb	SELECT FirstName, MiddleName, LastName FROM person.Person p WHERE FirstName like 'Helen';
48kb	SELECT FirstName, MiddleName, LastName FROM person.Person p WHERE FirstName like 'Marcia';
40kb	SELECT FirstName, MiddleName, LastName FROM person.Person p WHERE FirstName like 'Fred';
40kb	SELECT FirstName, MiddleName, LastName FROM person.Person p WHERE FirstName like 'George';
40kb	SELECT FirstName, MiddleName, LastName FROM person.Person p WHERE FirstName like 'Ann';
40kb	SELECT FirstName, MiddleName, LastName FROM person.Person p WHERE FirstName like 'Bill';
40kb	SELECT FirstName, MiddleName, LastName FROM person.Person p WHERE FirstName like 'Mary';
